

Premium home aesthetic care
that tightens the skin
by inserting melting threads into the skin

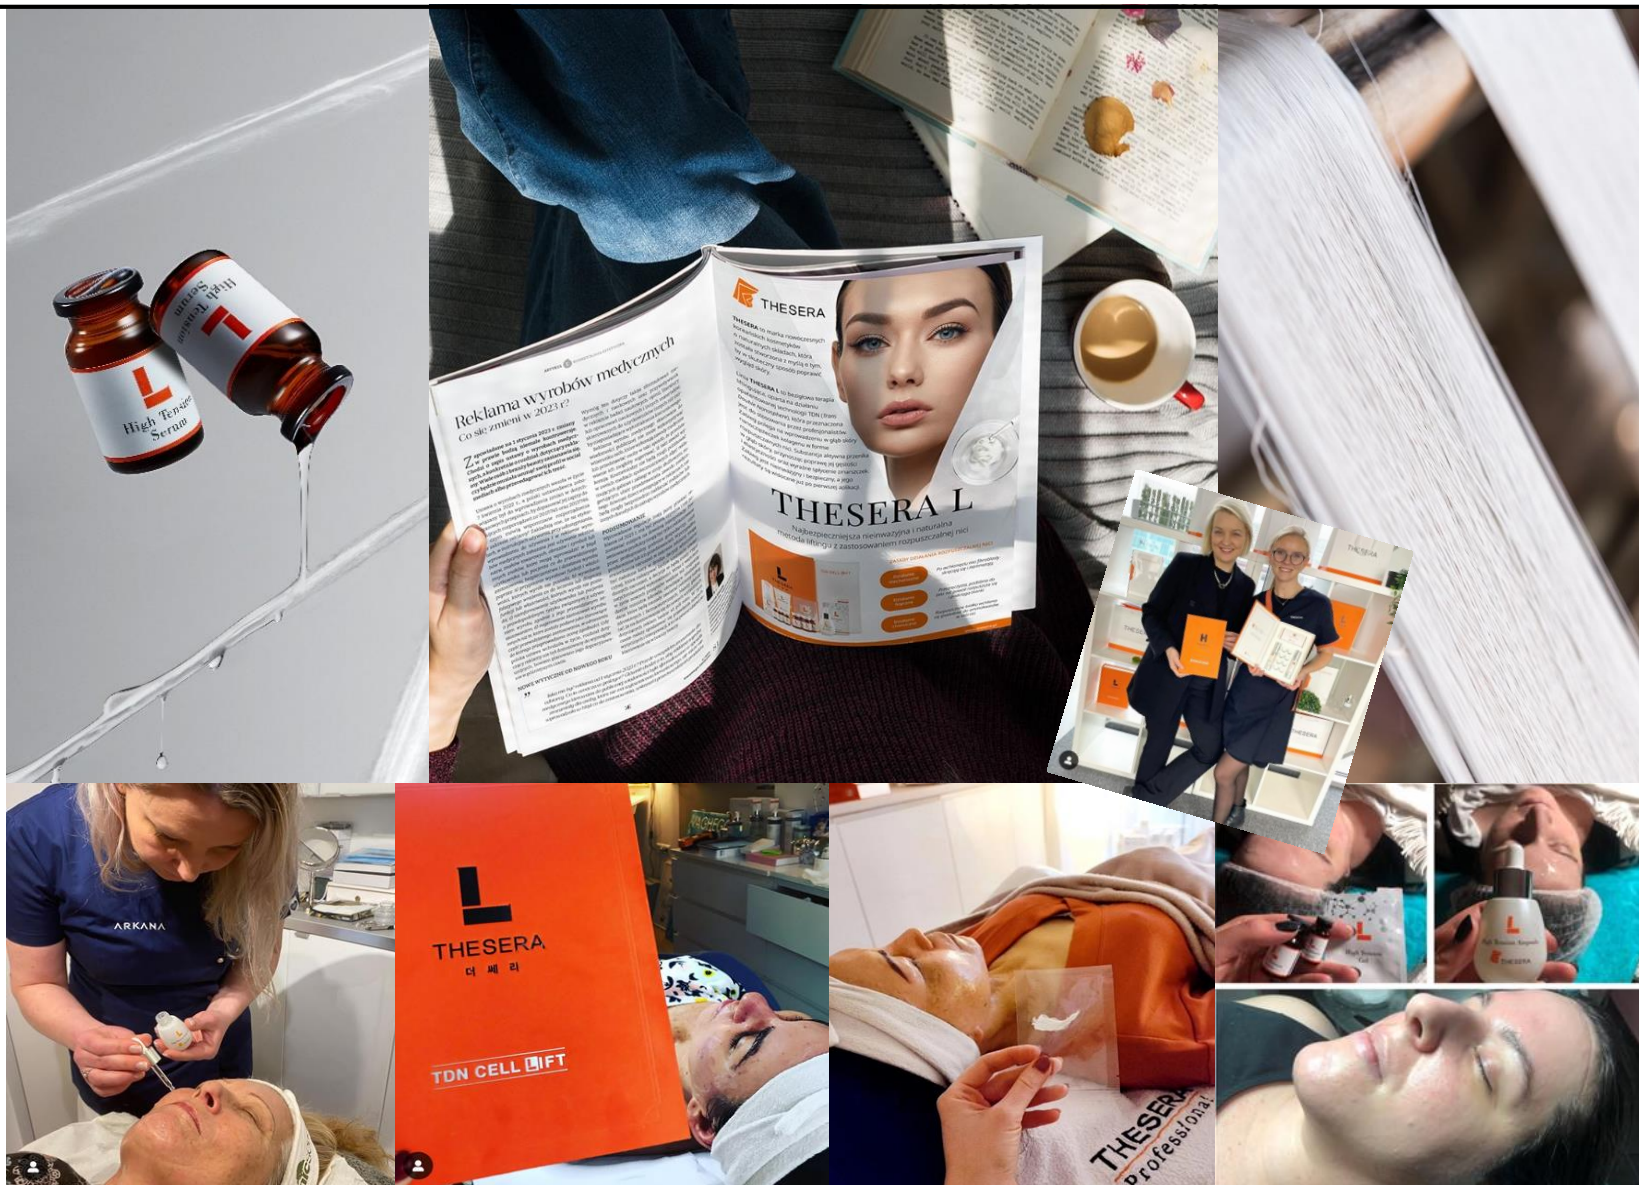

THESERA L-FTING

**The first natural melting
thread** lifting kit in the aesthetic
industry, THESERA L

**THESERA L, loved by experts
around the world**
(export to more than 60 countries)

A premium at-home lifting kit
containing **10 years of lifting
know-how of THESERA**

L-FTING

THESERA
MEDICOSNICAL

L-FTING,

Overall anti-aging care with powerful lifting effect

- ✓ The know-how of THESERA, the first in the aesthetic industry to develop melting thread lifting
- ✓ 10 years of lifting research technology
- ✓ Upgraded key ingredients – melting thread + spider web peptide, vegan collagen, anti-glycation solution
- ✓ A firm, stretchy thread formulation that feels firm even when applied
- ✓ A firm finish with a 4D three-dimensional functional cream

More powerful lifting thread!

The lifting power becomes even stronger with the combination of melting thread and spider web peptide!

1. Chitosan (The main ingredient of the natural melting thread of THESERA L)

- The biocompatible natural ingredient is absorbed into the skin in sizes smaller than pores by applying absorption technology developed by the research team of THESERA.

2. Spider Web Peptide

- Spider web: A strong natural fiber with high strength and flexibility in nature. It has good elasticity (five times that of steel), excellent moisture absorption, and is rich in proteins that promote skin regeneration.
- **Application of patented strain hydrolysis method (mushroom mycelia fermentation method)**
- Easy to absorb, increases the content of amino acids present in spider webs, and reduces the toxicity it has

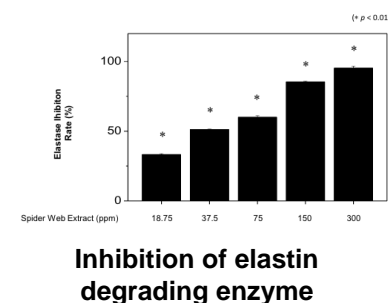

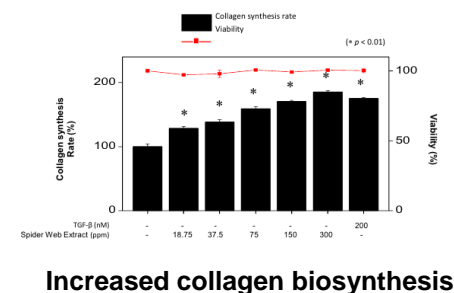

Steel

<
5 times

Spider web

Perfectly blocks skin aging!
Core ingredients upgraded through long-term research
by the THESERA R&D team

Vegan Collagen

Collagen is also vegan!
Produced sustainably, it is ethical,
environmentally friendly, and
carries a lower risk of allergies than
animal collagen.

- Hydrolyzed extension
(Hibiscus collagen)
- Jeju Canavalia lineata extract

Anti-glycation solution

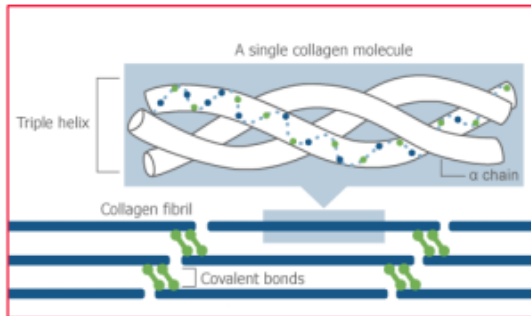

**Improvement of glycation,
a cause of premature aging!**
Maintains skin elasticity and
protects against collagen damage

- Resveratrol
- Carnosine
- Milk thistle

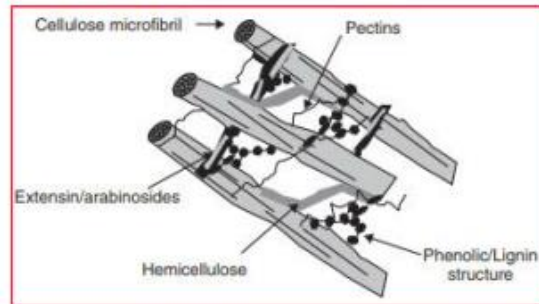

Vegan Collagen

Firms the skin with vegan collagen that has excellent biocompatibility!

Structure of Collagen

Structure of Extensin

*Extensin: A plant-derived glycoprotein similar to collagen

Hydrolyzed Extensin

- 300Da low molecular collagen
- Contains glycine, proline, and hydroxyproline to maintain skin elasticity
- Contains a large amount of polyphenols to provide high antioxidant effect

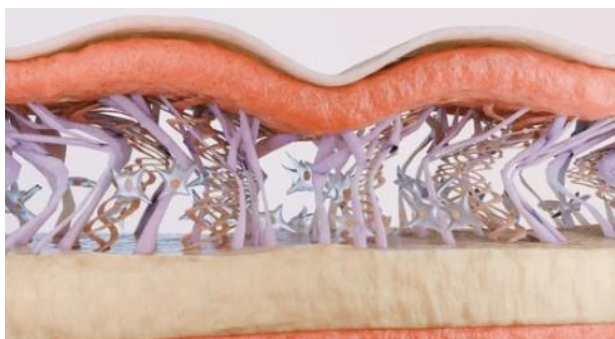

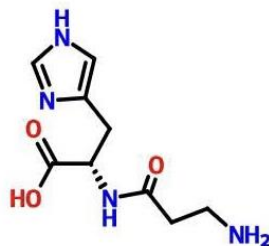

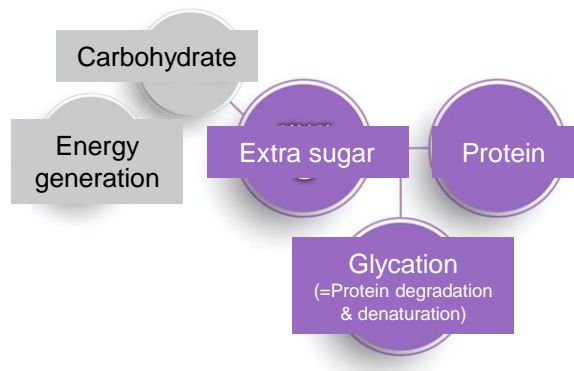

Jeju Canavalia Lineata Extract

- Supplies moisture through aquaporin activation
- Excellent wrinkle improvement effect through inhibition of protein decomposition enzyme expression

Anti-glycation solution

Enhances skin elasticity by suppressing glycation! Prevents collagen damage!

Glycation is the process in which sugar in the skin combines with proteins to damage collagen and elastin, causing the skin to lose elasticity and is the main cause of wrinkles and sagging.

Carnosine

- Advanced peptides of amino acids
- Removal of advanced glycation end products (AGEs)
- Improvement of wrinkles and elasticity

Resveratrol

- Inhibits the process of forming advanced glycation end products (AGEs)
- Maintains skin elasticity and structure

Milk thistle

- Inhibits the process of forming advanced glycation end products (AGEs)
- Inhibits collagen damage
- Soothes skin

Removes wastes from the skin and draws nutrients into the skin **#botox toner**

- **THESERA L-FTING TONER [100ml]**

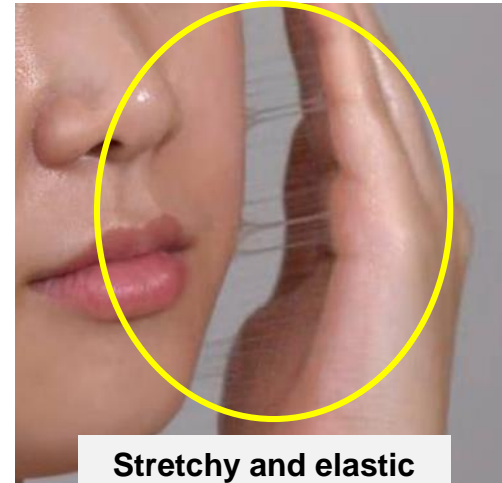

- Functional toner for improving skin moisture balance, regenerating the barrier, and improving irritated skin
 - Smooths out the skin with a moist feeling
 - AKA '**Botox toner**'
-
- Efficacy: Skin soothing, hydration, boosting
 - Main ingredients: Chitosan, Spider web extract, Hydrolyzed extensine, Jeju Canavalia Lineata Extract, Carnosine, Resveratrol, Milk thistle, Alantoin, Dioscorea japonica root extract, Beta-glucan

Tightens the skin by inserting melting threads into the skin **#thread lifting essence**

▪ **THESERA L-FTING ESSENCE [30ml]**

- Functional essence that provides elasticity to improve sagging skin
- The melting thread and spider web peptide thread pull the skin tightly and fix the uneven facial line.
- AKA 'Thread lifting essence'
- Efficacy: Facial lifting, wrinkle improvement, brightening
- Main ingredients: Chitosan, Spider web extract, Hydrolyzed extensine, Jeju Canavalia Lineata Extract, Carnosine, Resveratrol, Milk thistle, Abeliophyllum distichum extract
- How to use TIP: First, use the sticky technique to absorb it, then spread it evenly over the entire face and let it absorb. For wrinkle areas such as the forehead, around the eyes, and nasolabial folds, use the sticky technique to let the thread absorb sufficiently.

**Stretchy and elastic
threads formulation**

Removes sugar toxins and makes the skin elastic **#filler cream**

▪ **THESERA L-FTING CREAM [30ml]**

- 4D stereoscopic functional cream that delays aging caused by anti-glycation and restores damaged collagen and elastin
- Removes wrinkles and fills volume to create elastic skin
- AKA '**Filler cream**'
- Efficacy: Elasticity enhancement, anti-aging
- Main ingredients: Chitosan, Spider web extract, Hydrolyzed extensine, Jeju Canavalia Lineata Extract, Carnosine, Resveratrol, Milk thistle, Abeliophyllum distichum extract
- How to use TIP: After evenly absorbing it over the entire face, rub your palms to generate heat and gently place it on your face.

Unedited Review after 1 week of L-FTING use

Female in her 50s (Dry/aging skin)

- Skin concerns: Fine wrinkles, sagging skin, loss of elasticity
- Feelings after one week of use: Pores feel tighter and more voluminous, skin texture feels smoother and more organized

Recommended for

- People who want lifting care in their daily lives (no pain, no recovery)
- People who want easy lifting effects without the burden of medical procedures
- People who want young and elastic skin
- People who are concerned about traces of time around the eyes, mouth, and forehead
- People who need to maintain a more distinct facial contour
- People who want to prevent early aging

THESERA **L-FTING**

Contains **THESERA L's melting thread ingredient**, which provides elasticity to the skin and provides a lifting effect.

THESERA L-FTING is a premium at-home care set with **10 years of THESERA's dedicated research for lifting.**
